

## **An overview of the basic result of** **“Electroneuro Adaptive Regulation – SPACE-HEALER”**

### **Musculoskeletal System:**

- Dorsalgia, i.e. cervicalgia, lumbago etc.
- Soft tissue disorders (diastasis, wasting and atrophy of muscles, contractures, myalgia and pain in limbs etc.)

### **Circulatory System:**

- Include generation of blood vessels, etc.
- Lymphoedema etc...

### **Respiratory System:**

- Acute upper respiratory infections (acute nasopharyngitis – “common cold”; pharyngitis and acute laryngitis etc.).
- Oedema of larynx, laryngeal spasm and upper respiratory tract hypersensitivity reaction etc.).

### **Digestive System:**

- Dyspepsia; acute dilatation of stomach, etc...
- Constipation, functional diarrhoea, neurogenic bowel; anal spasm, etc...
- Intestinal malabsorption, colostomy and enterostomy malfunction, etc...

### **Disorders of Female Genital Tract; Pregnancy, childbirth and the Puerperium:**

- Disorders of breast (benign mammary dysplasia, etc.).
- Ectropion and dysmenorrhoea and other painful conditions associated with female genital organs and menstrual cycle; menopausal and other perimenopausal disorders, etc...
- Failed induction of labour; abnormalities of forces of labour; fetal stress and asphyxia; maternal distress, etc...
- Complications related to the puerperium (venous complications; various complications of anaesthesia in labour and delivery, cracked nipple, agalactia and hypogalactia, suppressed lactation, lactostasis, etc...

### **Nervous System:**

- Episodic and paroxysmal disorders (other headache syndromes and sleep disorders etc...)
- Other myoneural disorders, etc...

### **Ear and Mastoid process:**

- Diseases of external ear include associated with other diseases.
- Diseases of middle ear and mastoid.
- Diseases of inner ear (noise effects on inner ear etc.).
- Other disorders of ear (otalgia and effusion of ear, etc.)

### **Eye and Adnexa:**

- Disorders of eyelid, lacrimal system and orbit (hordeolum and chalazion; blepharitis; ptosis of eyelid etc.; dacrioadenitis and dacryocystitis; lacrimal canaliculitis etc.; acute and chronic inflammation of orbit; exophthalmic condition as a result of haemorrhage or oedema etc.).

- Disorders of conjunctiva
- Disorders of posterior segment of the eye.
- Disorders of vitreous body and globe.
- Postprocedural disorders of eye and adnexa, etc...

### **Oral Cavity, Salivary Glands and Jaws:**

- Dental caries (esp. deep and arrested), Toothache.
- Diseases of pulp and periapical tissues (pulpitis; acute and chronic apical periodontitis and periapical abscess; radicular cyst).
- Gingivitis and periodontal diseases (acute and chronic gingivitis; acute and chronic periodontitis; periodontosis etc.).
- Other diseases of jaws (odontogenic cysts; inflammatory conditions of jaws, alveolitis of jaws).
- Diseases of salivary gland (sialoadenitis; sialolithiasis; stenosis of salivary duct etc.)
- Stomatitis and related lesions.
- Diseases of lips and tongue (cheilitis; cheilosis; irritative hyperplasia of oral mucosa etc.; glossitis etc.).

### **Skin and Subcutaneous Tissue:**

- Diaper dermatitis
- Erythema.
- Other skin diseases and conditions (sunburn and other radiation-related disorders; alopecia; acne and ulcer of skin etc.).

### **Injury, Poisoning and certain Other Consequences of external causes:**

- Injuries (superficial injuries – abrasion; blister; contusion; include. Bruise and hematoma; injury from superficial foreign body; insect bite, nonvenomous; open wounds – animal bite; cut; laceration; puncture wound; injuries to blood vessels, injuries to muscles and tendons; crushing injuries: injuries to internal organs etc.).
- Effects of a foreign body entering through natural orifice.
- Burns and corrosions (thermal burns from electrical heating appliances, electricity, flame, friction, hot air and hot gases, hot objects. Lightning, radiation; chemical burns, external and internal; scalds).
- Frostbites.
- Poisoning by drugs, medicaments and biological substances: toxic effects of substances chiefly nonmedical as to source.
- Other effects of external causes (unspecified effects of radiation; effects of heat and light; hypothermia; effects of air and water pressure; asphyxiation; effects of certain deprivation, as effects of hunger, thirst; exhaustion due to exposure or excessive physical or excessive physical or intellectual exertion etc.; maltreatment syndromes; adverse effects, such as anaphylactic reactions; angioneurotic oedema and other allergies).
- Sequelae and complications of trauma, including surgical and other medical traumas.

### **Other applications:**

- Disorders involving immune mechanisms ( “secondarily”immunodeficiencies, as common variable immunodeficiency, immunodeficiency with predominantly antibody defects and other major defects etc.).
- Localized adiposity; different kinds of metabolic disorders.
- Mental and behavioral disorders due to psychoactive substance use; hysteria; mood disorders; stress-related conditions, such as an acute stress reaction, posttraumatic stress disorder, adjustment disorders etc.; somatoform autonomic dysfunctions” cardiac or gastric neurosis, neurocirculatory asthenia psychogenic forms of aerophagia, cough, diarrhoea, dyspepsia, pylorospasm, irritable bowel syndrome, dysuria etc., psychalgias; behavioral disorders.
- Disorders of physiological or psychological development, special behavioral and emotional disorders of childhood and adolescence (include hyperkinetic disorders, conduct and emotional disorders, disorders of social functioning; tic disorders, nonorganic enuresis, stammering etc.).
